

Vishal Mehta

Design Leader | AI-Augmented Workflow | Consumer & Enterprise

Cupertino, CA • +1 (650) 228-4221 • knock@vishalme.com • [Portfolio](#) • [LinkedIn](#)

PROFILE

Customer-obsessed UX Designer with 25 years of experience turning complex problems into intuitive, data-validated experiences. I combine deep UCD expertise with AI-augmented workflow (Figma, Claude) to rapidly produce wireframes, mockups, and production-ready code — then validate them through usability testing and experimentation. Proven track record delivering at speed in close partnership with Product Managers and engineering teams at Apple, Walmart, and Intuitive.

CORE COMPETENCIES

- **AI-Augmented Design:** Rapidly translating concepts into functional code using generative AI (Claude, Figma Make) to compress iteration cycles from weeks to days.
- **End-to-End UX:** Wireframes, process flows, visual mockups, and interactive prototypes grounded in usability testing, user research, and UCD principles.
- **Cross-Functional Collaboration:** Deep experience partnering hand-in-hand with Product Managers, engineers, and executives to define requirements and ship features in fast-paced agile environments.
- **Current Tools:** Claude, Figma, Sketch, Keynote, React/HTML/CSS/JS, Xcode, Git, Jira

PROFESSIONAL EXPERIENCE

UX Design Lead • Apple Aug 2024 — Present

- **Rapid Transformation (Terran & Raptor):** Transformed two mission-critical platforms in <2 months using "vibe-coded" principles to unify insights for Engineering & QA.
- **Cross-Functional Delivery:** Partnered directly with Product Managers and engineering leads to define requirements, prioritize features, and ship product features through rapid design sprints.

UX Design Lead • Walmart Apr 2022 — Aug 2024

- **AI-Driven Design System:** Architected the "DV Design System," leveraging Gen AI to automate documentation, ship component variants, and create accessible data viz palettes.
- **Record Velocity:** Achieved record-breaking release velocity for Luminate Insights (<6 months) with zero design debt, demonstrating bias for action while guiding the team through rapid iteration cycles on scalable Table/Chart components.

Head of Product & Innovation • Ionate Nov 2020 — Apr 2022

- **End-to-End Product Design:** Led the full UX lifecycle — from research hypothesis through ideation, design, and delivery — for an AI/ML platform, reducing digital transformation cycles to <6 weeks.
- **Customer-Centric Innovation:** Conducted user research and usability testing to validate AI-driven features, directly contributing to Ionate's acquisition positioning and seed funding.

PROFESSIONAL EXPERIENCE (CONTINUED)

- Product Design Lead • Intuitive Surgical

Mar 2020 — Oct 2020

 - **Consumer App Launch:** Launched Customer Portal 2.0 as an early adopter of Intuitive's new design system — establishing patterns for mobile and driving system-consistent feature delivery.
- Sr. UX Designer • Apple

Aug 2015 — Feb 2020

 - **Apple Pay Engineering Platform:** Led UX redesign to address debt; innovated with ML to automate bug reporting from deployment logs.
 - **UniBox (Enterprise Approval):** Designed "Delegation" and "Mutual Locking" features for executive workflows, integrated with Calendar & HR systems.
- Sr. UX Designer • Seagate Technology

Oct 2014 — Jun 2015

 - **Scalable Pattern Library:** Led creation of a centralized design system and live-coded UI templates.
- Sr. Design Consultant • Synactive

Apr 2014 — Oct 2014

 - **Mobile Innovation:** Redesigned SAP ERP interfaces for mobile devices validated by Fortune clients.
- Founding & Engineering Roots

Jan 2000 — Apr 2014

 - **Founder, IDYeah Creations (2008-2014):** Led a UX consultancy partnering with Synactive GmbH to modernize SAP workflows for Indian markets, securing clients like Mercedes Benz, and Raymond. Positioned early startups on the investor path — by elevating their product experience and brand story.
 - **Software Engineering (2000-2008):** 8+ years building enterprise architecture and software at Amdahl, Synactive, CoreObjects, and Geometric—forming the technical basis for my UX career.

THOUGHT LEADERSHIP & RECOGNITION

- **Author & Speaker:** Design AI Alchemy (eBook), 200+ articles (UX Matters, UX Booth, Bootcamp, Medium), and Invited Speaker at World Usability Congress '25.
- **Judge & Reviewer:** TreeHacks (Stanford), CalHacks (UC Berkeley), IEEE EDUCON, IXCA, and IndiaHCI.
- **Researcher:** Co-authored papers on HCI, AI, Accessibility and Ethics (60+ citations)
- **Community Builder:** Senior Member (IEEE), Professional Member (ACM | SIGCHI | UXPA)

EDUCATION & TRAINING

- **MS, Computer Science** | University of San Francisco | 1999
- **Human-Computer Interaction** | Stanford University | 2012
- **Gamification** | The Wharton School | 2013
- **Accessibility: How to Design for All** | Interaction Design Foundation | 2024
